Education

B.Tech – Computer Science & Engineering (AI) <i>Galgotias College of Engineering and Technology</i>	2023 – Present
Class XII (BSEB) <i>MJ Activity Senior Secondary School</i>	82.8%
Class X (BSEB) <i>Utkarmit Madhyamic School</i>	78.8%

Skills

Languages	Java, JavaScript, SQL
Core	DSA, Problem Solving
MERN Stack	MongoDB, Express.js, React.js, Node.js
Frameworks	Next.js, Tailwind CSS, REST APIs
Tools	Git, GitHub, Firebase, Postman

Projects

DevTinder – Developer Matching Platform - Built a Tinder-like app for developers to connect and match based on skills. - Implemented authentication, profiles, and matching system using the MERN stack.	<i>MERN Stack</i>
StreamBharat – Video Streaming Platform - Developed a YouTube-like platform with video upload, playback, and search features. - Optimized UI and backend architecture for smooth and scalable performance.	<i>MERN Stack</i>
NetflixGPT – AI Movie Recommendation System - Built an AI-powered system for movie recommendations using LLM APIs. - Implemented dynamic UI and intelligent search features with real-time suggestions.	<i>React, LLM APIs</i>

Experience

Data Visualization Intern - Worked on data analysis and visualization using charts and interactive dashboards. - Presented data-driven insights to improve decision-making and dataset understanding.	2025
L1 Doubt Expert <i>Vedantu</i> Resolved JEE-level doubts in Mathematics and Chemistry for students in real time.	Oct 2023 – Aug 2025

Achievements

- CodeVita Season 13 (TCS)** – All India Rank **2645**.
- Solved **250+** DSA problems on LeetCode and **100+** on GeeksforGeeks.
- Top 5 Team** – VisionX GFG Noida Hackathon.
- Active contributor in competitive programming contests and tech communities.
